Polymeric	Matt White	Matt Colour
Bronze Metallik Rovere Grain Dark Rockford Burbon Oak Thermo A Fruit Wood	Matt White	<b>48</b> Matt Colours (see Samples)

**NOTE:**

For all kinds of tops, please see **GENERAL PRICELIST (pages 398-443)**.

**POLYMERIC**

Made in MDF coated Polymeric, anthracite bottom side finish.

**LACQUERED**

Made of wood particle board panels, edged with polyurethane glue in order to increase its resistance in a humid environment. Finished with a primer coat of preparation and three coats of paint in color.

**Maintenance:**

We recommend drying after each use, to avoid stagnation of water or soap that could affect the resistance of the surface. The cleaning must be carried out with a damp cloth and a solution of 20% neutral soap and water, then wipe again with a cloth moist, well rinsed and without soap. DO NOT use solvents, alcohol or abrasive products.

**NOTES FOR SIZES:**

- All tops, of any material, are made by increasing of:  
**WOODEN tops → +4 mm (2 mm for each side) the nominal furniture size.**  
**BOXED tops → +0 mm (the nominal top size)**  
**Other tops → +10 mm (5 mm for each side) the nominal furniture size.**
- Depth measure can vary, compared to that indicated, according to the furniture model chosen.

**IMPORTANT NOTES:**

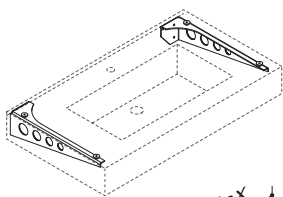

- ALWAYS ADVISE IF FURNITURE GOES IN A NICHE OR PLACED WITH A SIDE CLOSED TO THE WALL.
- In case of washbasin not supplied by PUNTOTRE, send a technical sheet of the basin with mixer hole position.
- In the presence of a WALL MIXER, always send a technical sheet of the tap chosen.

**Support brackets**

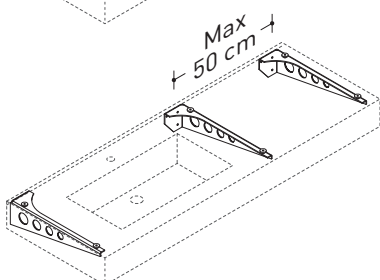

**Standard plugs supplied.**

Special plugs for drywall or other needs shall be found locally.

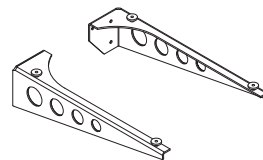

**Brackets for tops.**

2 Brackets

2 Brackets  
+ 1 Side bracket each 50 cm

**OCRITECH®** is a mixture of high quality inert powders, aluminum tri-hydrate and acrylic resin. The result is a white matt finish, compact in the entire thickness (SOLID-SURFACE), with a very low absorbency, that can be restored. OCRITECH® is a very compact and uniform material. Recovery can include serious harm, such as deep scratches, which can be removed by fine glass-paper or abrasive sponge Scotch-Brite®. OCRITECH® contains no pollutants and is resistant to UV rays.

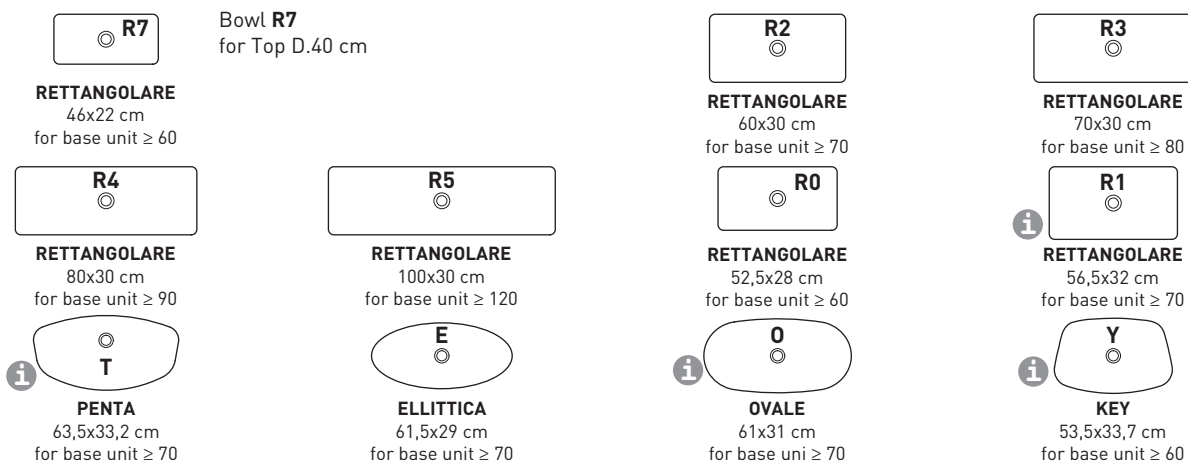

**Maintenance:**

Be careful, solvents, can damage the material. For daily cleaning use a damp microfiber cloth. Each delivery includes a set of recovery with Scotch-Brite®. It is recommended once a year to treat the surface with the Scotch-Brite® sponge to restore the original finish and remove the natural oxidation of the product.
